Information

Coface South Africa Information is a dedicated business information report provider to both the local and international market place, offering accurate and reliable information on your trading partners to enable trade.

Coface South Africa Information is the first in the South African market place to offer a combination of factual business information together with the robust risk analysis of a leading global credit insurer.

International Information Reporting

At every stage of its business, a company needs to be able to reliably assess the customer's ability to fulfill its commitments.

As part of the 5th largest information provider in the world, Coface South Africa Information draws on its worldwide network of Trade Information entities and Partners to deliver quality international information reports to the South African market place.

Information is available on 50 million companies across 200 countries worldwide, and is cross checked with data from several hundred public and private sources. The information is used to manage each company's credit rating and risk exposure on a continuous basis.

With Coface South Africa Information as your business partner the concerns of trading with an unknown international entity are eradicated through excellent, current and relevant business information at your finger tips.

Benefits:

Use information as an asset for your business through:

- Focusing on reliable, high potential customers.
- Optimizing relationships with existing customers.
- Improving data on your customer portfolios'.
- Gaining added flexibility for business decisions.
- Saving time on unnecessary research.

Some of the main features of the international business report:

- Executive Summary
- Key personnel / owners
- Affiliated Entities
- Current Operations
- History of the business
- Payment History
- Financial Figures
- Financial Information
- Financial Analysis
- Legal
- Bank References
- Public Records

Normal business practices will vary from country to country, and the availability of information may permit additional insight into the strength and creditworthiness of a company.
