“Portfolio” view

The risk and information “Portfolio”: lists all the companies on which you have requested a coverage or an information product. It offers several filters organized by tab for quickly identifying your companies:

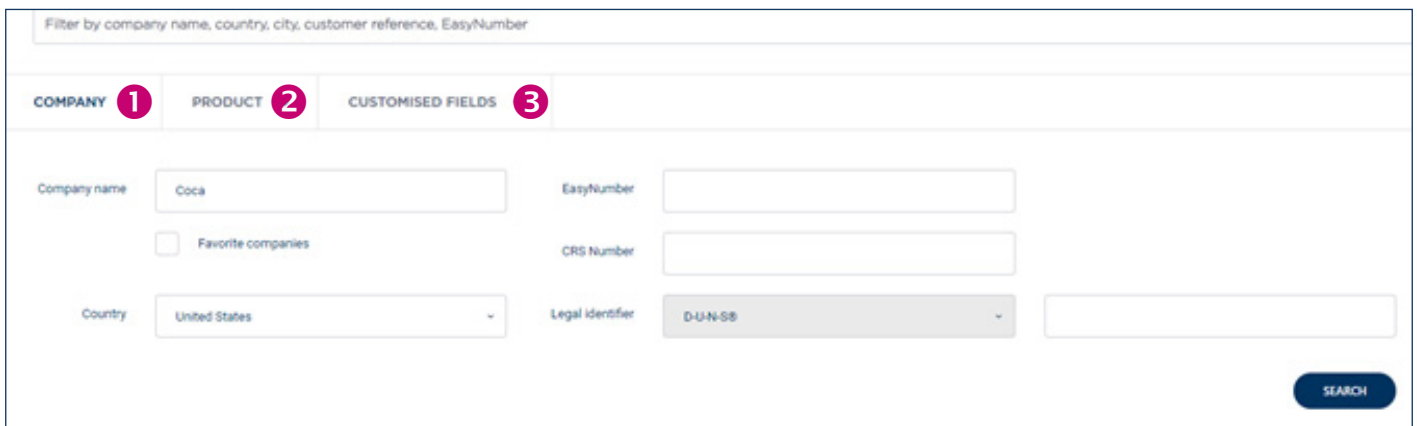

I. Portfolio Management

By default, the portfolio lists the last 100 companies on which an action or update has been made.

a. Search Criteria filters

You can use the Search Criteria filters provided to optimize the view of your portfolio. The functionality scans your entire risk portfolio, and retrieves a maximum of 100 results listed in chronological order from the most recent date to the oldest

The search criteria are divided into 3 parts; the criteria related to the company (i), the criteria related to the Coface product (ii) and the customised fields (iii).

At any time you can reset your search by clicking on the blue button underneath the Search Criteria

➤ **By Company**

You can search a specific customer in your risk portfolio on its business name. Using only a part of the company's name is possible.

➤ **By Country**

The Portfolio displays all companies in all countries by default.

The drop down list contains all the countries where you have requested a product; to view a particular country, select it from the drop down list.

➤ **By Legal Identifier**

You can search for a company using its legal identifier. The drop down list contains all the local legal identifiers, corresponding to the selected country above, the Easy Number, or Coface Reference number (if "all countries" are selected, then Local legal Identifiers are not displayed).

➤ **By product**

You can filter the risk portfolio by a specific Coface product. To do so, choose a Coface product from the drop down list. By default, the list displays all Coface's products (even if they are not on your contract). You may want to differentiate "Insurance product" from "Information product" - in this case tick the appropriate box.

➤ **By decision amount**

You can filter on a minimum and maximum decision amount (in thousands USD).

➤ **By Status**

You can display the companies filtered on product status. The type of status will depend on the Coface product:

Status available (depending on your contract/product)

- Agreed
- Being cancelled
- Being withdrawn
- Cancelled
- Expired
- Fullfilled
- Partially agreed
- Reduced
- Refused
- Replaced
- Withdrawn

Click on the appropriate status, you may select more than one status at the same time

➤ **(ii) By date**

You can filter the companies on a period of time between two dates:

➤ **(ii) By Clause**

You can filter the companies on a specific clause, such as a guarantor. This criterion is only available for credit insurance products.

b. “Type as you go” filter (or view filter)

To locate a company within a portfolio view (as well as for other tables) you may use a “Type as you go” filter.

This filter scans the portfolio to display only the results containing the words you have entered

Two type of filters in CofaNet Essentials

- **Search Criteria:** This filter scans your entire risk portfolio based on the selected criteria
- **Type as you go Filter :** This filter scans the content of the table or portfolio based on the text you have entered

c. List of Companies

The list of companies is displayed in a table with columns that vary according to the view (Overdues versus Risk)

The number of companies displayed per page can be customized in the “Options” menu.

Each company is displayed on one line, and can have one or more products attached. Wherever you click on the line of the company, it will lead you to the Company’s detail.

By default, the risk portfolio is displayed in chronological order from the most recent to the oldest. The companies listed correspond to the companies that have been updated recently (update date). The list cannot display more than 100 companies.

Important:

The risk portfolio format displayed in CofaNet Essentials cannot exceed 100 companies. As your Portfolio can be constituted of more than 100 companies, you may see only a partial view, at first.

In order to get the complete view, you can export your entire portfolio.

Also, you can adjust the number of companies displayed in the portfolio by using some filters in “Search Criteria”

➤ Companies list layout

By default, the following columns are displayed:

- On the left hand side, you find the information on your customer: company's name, address, country.
- On the right hand side, you find the information on the products ordered

Color code lines differentiate the Coface products

Credit Insurance Products
Information Service Products
Overdue Products

IV. Reports

You can request any report items on a company. From the Company's Detail View go to "Select Actions" Box and click on the product required.

Depending on your contract, and the country of the customer, you may have access to three types of Reports: Snapshot, Full (new investigation, or instant delivery), or Business Report.

a. Snapshot report

A Snapshot Report contains basic business information data. It is available in most cases with instant online delivery and for a few cases with a delivery delay depending on the connections with the Coface partners.

You can choose the language you want the Snapshot report to be displayed: English, French, German or Spanish.

A screenshot of a form titled "Order a Snapshot Report". At the top, there is a checked checkbox with the text "Instant Delivery: Obtain the report immediately in one click". Below this is a dropdown menu labeled "Language" with "English" selected. At the bottom of the form, there are two buttons: "Cancel" (with a close icon) and "Confirm" (with a checkmark icon).

b. Full report

Full report provides comprehensive and extensive information, allowing in-depth analysis of the credit risk of the company.

You have the choice between 2 options by clicking on the green buttons:

- "Order a Full report - instant delivery "
- "Order a Full report - new investigation"

A screenshot of a form titled "Order a Full Report". It is split into two columns. The left column is titled "FULL REPORT NEW INVESTIGATION" and has an unchecked checkbox with the text "New investigation: Obtain the latest information". Below it is a dropdown menu labeled "Language" with "English (US format)" selected. The right column is titled "FULL REPORT INSTANT DELIVERY" and has an unchecked checkbox with the text "Instant Delivery: Obtain the report immediately in one click". Below it is a dropdown menu labeled "Language" with "English (US format)" selected. At the bottom right of the form, there are two buttons: "Cancel" (with a close icon) and "Confirm" (with a checkmark icon).

The difference is that on the first option, the Full report is delivered instantly online. In this case you have to look at the “Last update date” to evaluate if the information is recent enough to be worth ordering it.

If you choose the second option, it means you have estimated that the Full report needs to be refreshed. By ordering this new investigation, you will get an updated Full report within a few days.

The reports are the same in terms of content format, updated content along with a new update date with a new investigation. Also the format is standardized to ease reading and comparisons between several Full reports.

In both cases, you can choose the language you want the report to be displayed: English, French, German or Spanish.

V. Business Report

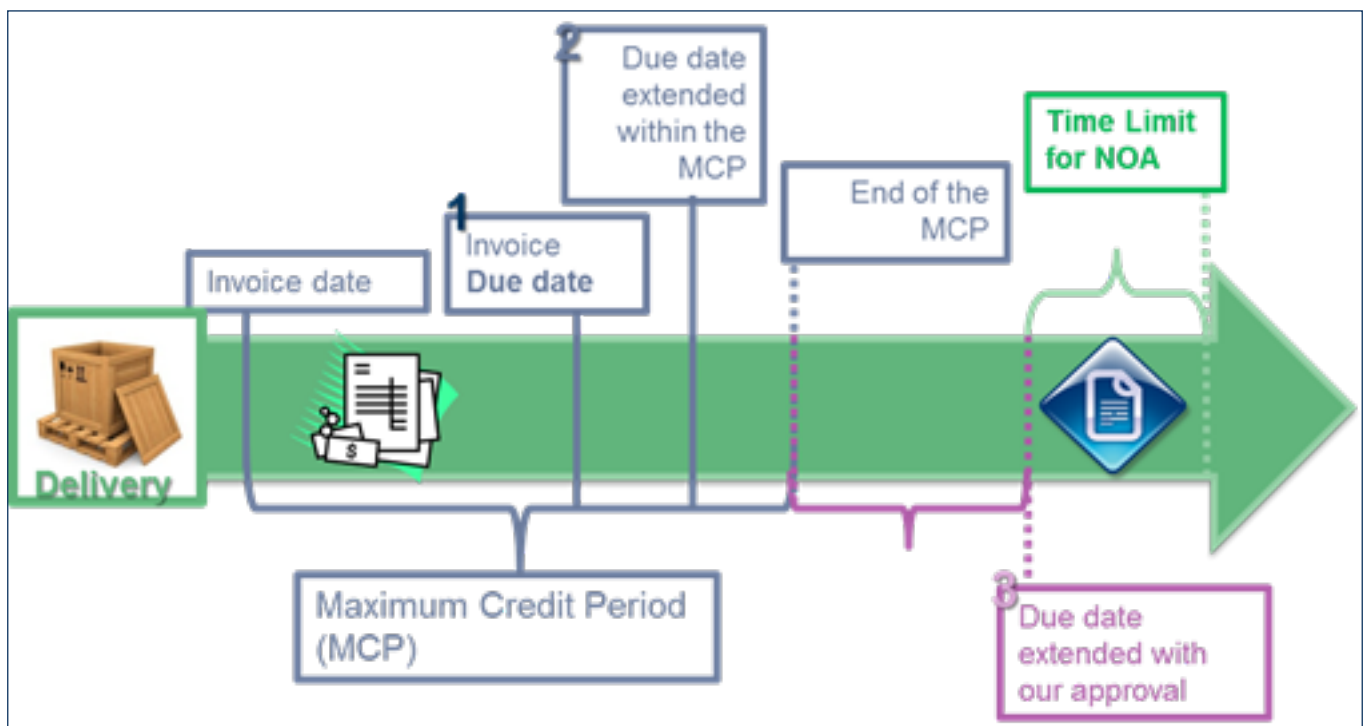

On this page you can order a business report which is a Credit Alliance Business Report (CABR). It provides valuable business and credit information on companies, allowing you to evaluate potential new customers, business partners and suppliers worldwide. If occasionally a company is not on our database, we will make a fresh investigation and obtain data to prepare a new report in within a few days.

If you click on the green button “order a report” you will receive the file.

Request an extension of due date

An extension of due date (EDD) is a request to schedule a payment plan for a number of invoices. The requested plan may be composed of multiple expected payments due dates and corresponding amounts.

- 1** The Due Date is the initial date when the Buyer must pay his Debt according to the Sales Contract. It must fall within your Maximum Credit Period.
- 2** Within the Maximum Credit Period, you can freely grant one or several extensions of the initial Due Date to your Buyer.
- 3** If your client requires an extended Due date which falls out the MCP, you must obtain our approval first.

Only one EDD may be granted to a customer. If an EDD already exists on a buyer within your portfolio, a new EDD cannot be created on that customer.

Active EDDs can be modified. Only pending EDD (meaning no decision from risk underwriting department yet) can be cancelled.

When a request for EDD is created (pending), the request is submitted to a risk underwriter. The risk underwriter will evaluate the EDD request and assign a status of the request as either ACCEPTED or REFUSED. The EDD will remain with a pending status in CofaNet Essentials (unless it has been cancelled) until the risk underwriter has taken his decision on the request.

I. Creation of an EDD

To create an EDD, you should select the product in the “Select Action Box” of the Company’s Detail View.

The following form appears. It is divided in three parts:

The screenshot displays the 'Order a product' form in the 'Coface Essentials' interface. The form is divided into three main sections, each marked with a red circle containing a number:

- 1. Product Selection:** This section includes the product name 'Com Dev L38', a search bar, and a 'CUSTOMER REFERENCE' field. Below this, there are instructions and a form for 'Reason for request' with a dropdown menu, 'Maximum installment' (set to 100), and 'Currency' (set to EUR).
- 2. Deliveries Invoiced:** This section is titled 'Deliveries invoiced' and includes an 'IMPORT INVOICES' button. It contains instructions on how to import invoices and a table for listing them. A 'Download template' button is also present.
- 3. Requested payment plan:** This section is titled 'Requested payment plan' and includes a table for 'ENTER YOUR PAYMENTS'. The table has columns for 'Due date' and 'Amount'. A total amount of 0 EUR is displayed at the bottom right of this section.

The form also features a table for 'Invoices' with columns: Invoice Number, Invoice Date, Initial invoice due date, Amount, Type, Paid amount, Payment date, and Comment. The table is currently empty.

1 Identification:

The section displays all information about the person in your company who is in charge of requesting the EDD. The contact details may be modified by clicking on the “Modify” button (by default the contact is the CofaNet user contact).

You should select the reason of non-payment

You can also change the currency; it will be applied to all the form.

2 Delivery invoices:

It allows you to identify multiple invoices that will be included in the extension of due date request. To communicate invoices associated to an EDD an import function is available.

All fields are mandatory.

3 Request payment Plan:

It allows the creation of multiple payment dates against the total amount of unpaid invoices.

The schedule can be created by completing the following two fields:

- New due date - proposed date set by the customer
- Amount: proposed amount set by the customer.

You can then click on Submit to send your request to Coface risk underwriting department.

II. Modification of an EDD

To modify an EDD, you have to select the EDD previously requested on the company. You cannot modify an EDD which has a pending status.

III. Answer from Underwriters

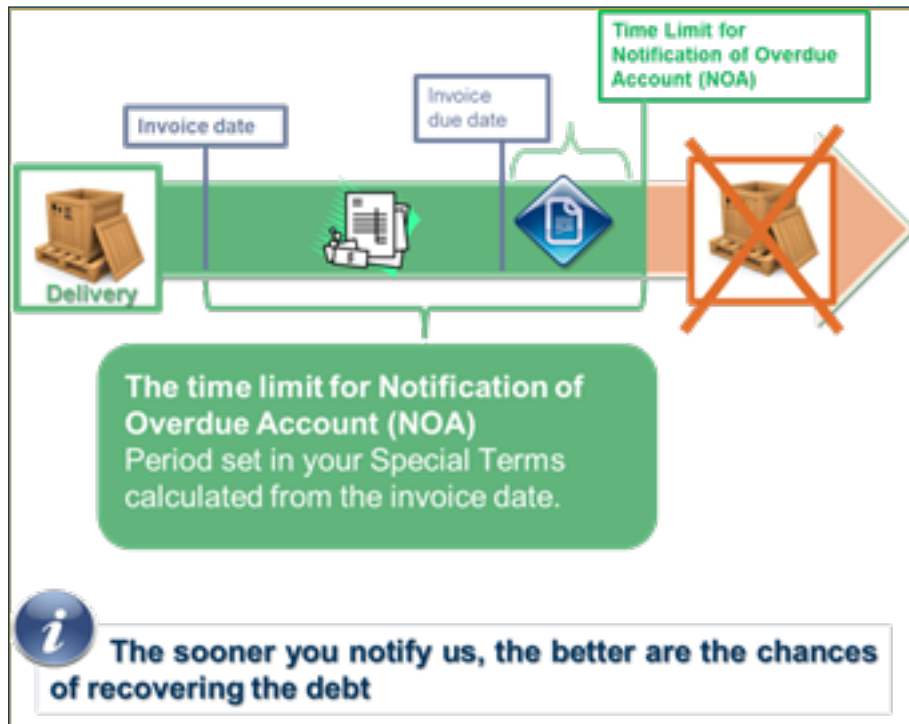

An EDD can be either agreed or refused.

In the case it is agreed the payment plan you propose can either be accepted as such, or our underwriters can propose you different from the one you have proposed. If the payment plan you propose is entirely validated by the risk underwriter, this payment plan is taken over in the company detail screen.

In the case the status is refused, the EDD is not valid.

Submit a Notification of Overdue account

If your invoice becomes overdue, you can submit a Notification of Overdue Account. Coface will then take over the collection actions and begin the indemnification process.

You need to submit a notification of Overdue Account (before a time limit specified in your special terms) when one of your customer/debtors does not pay his invoices partially or totally at due date.

The form enables you to indicate the invoices unpaid by the customer/debtor.

A Notification of overdue account with a request for intervention triggers a recovery action against the buyer.

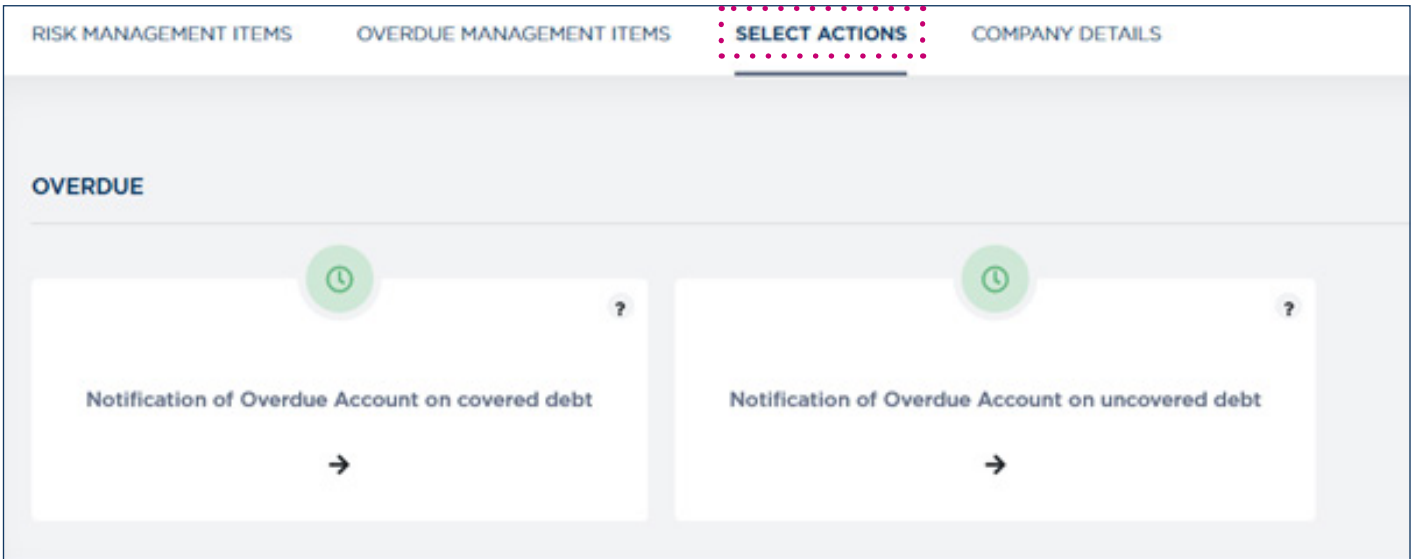

Depending on your contract, the request for intervention may be optional.

For the Globalliance contrat you will need to indicate before the confirmation of the submission whether you want or not to trigger a recovery action against the buyer/customer.

Depending on your contract, you may have the possibility to submit online an overdue account for uncovered debts (when your contract contains a Discretionary Limit clause, or an Unnamed buyer option, or the debt collection service on uncovered debts option).

In this particular case, you will have the two following actions within the “Select Actions” box.

A new NOA can be created only if all previous NOAs have a final status (closed, cancelled)
