You can request a @rating Credit Opinion on a company.

From the Company Details view go to the Select Actions box and click on the product required.

Depending on your contract, and the country of the customer, you may have access to three types of Report: Snapshot, Full (new investigation or instant delivery) or Business Report.

a. Snapshot Report

A Snapshot Report contains basic business information data. It is available in most cases with instant online delivery and for a few cases with a delivery delay depending on the connections with the Coface partners.

You can choose the language you want the **Snapshot Report** to be displayed in: English, French, German or Spanish.

b. Full Report

Full Report provides comprehensive and extensive information for in-depth analysis of the company's credit risk. You have the choice of 2 options by clicking on the green buttons:

- Order a Full Report Instant Delivery
- Order a Full Report New Investigation

The difference is that with the first option, the Full Report is delivered instantly online. In this case, you must look at the **Last Update Date** to evaluate whether the information is recent enough to be worth ordering.

If you choose the second option, it means you have estimated that the Full Report needs to be refreshed. By ordering this new investigation, you will get an updated Full Report within a few days.

The reports are the same in terms of the format of the content, updated content and with a new update date with a new investigation. In addition, the format is standardised to facilitate reading and comparisons between several Full Reports.

In both cases, you can choose the language you want the report to be displayed: English, French, German or Spanish.

5. BUSINESS REPORT

On this page you can order a Business Report which is a Credit Alliance Business Report (CABR). It provides valuable business and credit information on companies, allowing you to evaluate potential new customers, business partners and suppliers worldwide. If occasionally a company is not on our database, we will undertake a fresh investigation and obtain data to prepare a new report within a few days.

If you click on the green button Order a Report, you will receive the file.

REQUESTING AN EXTENSION OF DUE DATE

AN EXTENSION OF DUE DATE (EDD) IS A REQUEST TO RESCHEDULE THE INITIAL DUE DATE OF INVOICES

- The Due Date is the initial date when the Buyer must pay his invoices according to the Sales Contract.

 It must fall within your Maximum Credit Period.
- Within the **Maximum Credit Period**, you can freely grant one or several extensions of the initial Due Date to your Buyer.
- If your client requires an **Extended Due Date** which falls outside the MCP, you must obtain our approval first.

When a request for an EDD is created (pending), the request is submitted to a risk underwriter.

The risk underwriter will evaluate the EDD request

The EDD will remain with a pending status in CofaNet Essentials (unless it has been cancelled) until the risk underwriter has taken its decision on the request

The status of the decision for the risk underwriter can be either ACCEPTED or REFUSED

Active EDDs can be modified.

Only pending EDDs (meaning no decision from the Risk Underwriting Department yet) can be cancelled.

Only one EDD may be granted to a buyer. If an EDD already exists on a buyer within your Portfolio, a new EDD cannot be created.

In case of an EDD after the NOA, the request has to be made to your claim contact directly by email and out of Cofanet.

1. CREATING AN EDD

To create an EDD, you should select the item in the Select Action Box in the Company Details view.

The following form appears. It is divided into three parts:

EDD details:

The section displays all information about the person in your company who is in charge of requesting the EDD. The contact details may be modified by clicking on the Modify button (by default the contact is the CofaNet user contact).

- · You should select the reason of non-payment
- · You can also change the currency; it will be applied to all the form.

2 Deliveries invoiced:

It allows you to identify multiple invoices that will be included in the Extension of Due Date request. To communicate invoices associated to an EDD an import function is available.

All fields are mandatory.

3 Requested payment Plan:

It allows the creation of multiple payment dates against the total amount of unpaid invoices. The schedule can be created by completing the following two fields:

- New due date proposed date set by the customer
- · Amount: proposed amount set by the customer.

NB: the total amount of Deliveries invoiced has to be equal to the Total amount of Request Paymetnt Plan.

You can then click on Submit to send your request to the Coface Risk Underwriting Department.

2. MODIFYING AN EDD

To modify an EDD, you must select the EDD previously requested on the company. You cannot modify an EDD with a pending status.

3. ANSWER FROM UNDERWRITERS

An EDD can be either agreed or refused.

If it is agreed, the payment plan you propose can

- either be accepted as such,
- or our underwriters may suggest a different plan to the one you proposed. If the payment plan you propose is entirely validated by the risk underwriter, this payment plan is repeated in the Company Details screen.

If the status is refused, the EDD is not valid.

SUBMITTING A NOTIFICATION OF OVERVUE ACCOUNT

IF YOUR INVOICE BECOMES OVERDUE, YOU CAN SUBMIT A NOTIFICATION OF OVERDUE ACCOUNT.
COFACE WILL THEN TAKE OVER THE COLLECTION ACTIONS AND BEGIN THE INDEMNIFICATION PROCESS.

Depending on your contract, the request for intervention may be optional.

For the Globalliance contrat you will need to indicate before the confirmation of the submission whether syou want or not to trigger a recovery action again the buyer/customer.

- You need to submit a notification of Overdue Account (before a time limit specified in your special terms) when one of your customer/debtors does not pay his invoices partially or totally at due date.
- The form enables you to indicate the invoices unpaid by the customer/debtor.
- A Notification of overdue account with a request for intervention triggers a recovery action against the buyer.
- Depending on your contract, you may have the possibility to submit online an overdue account for uncovered debts and benefit from our debt collections services.

In this particular case, you will have the two following actions within the "Select Actions" box.

1. INITIALIZATION OF YOUR NOTIFICATION OF OVERDUE ACCOUNTS ON A COVERED DEBTS

You can submit your notification of overdue account on a company. From the Company's Detail View go to "Select Actions" Box and click on the product required. The following form will be displayed:

Invoices:

You communicate the invoices related to the NOA declaration either using the import function or by adding manually each unpaid invoice.

You should submit: Invoice type, Invoice date, initial invoice due date, net Amount, taxes, currency. All these fields are mandatory.

2 Payments input:

In a NOA you can communicate partial payments received either using the import function or by adding manually each invoice.

You should mention: Payment type, Invoice reference, Date of payment, Amount, Currency. All these fields are mandatory,

Comments:

You may add a comment about the NOA. This field is optional and limited to 900 characters.

Click on Submit to send the notification of overdue account.

Remark: If you requested intervention, a second page is displayed for you to confirm the request for intervention (RFI) after the NOA submission.

You can tick the appropriate box depending on your need.

This first NOA submitted is named Initial NOA. Once the Initial NOA is created, other NOAs can be created and are named Additional NOAs. As the NOA evolves over time, through additional NOAs you can communicate additional unpaid invoices and / or received payments. The NOA Case is the name for the declared NOAs (initial and additional), displayed in your overdue Portfolio.

2. MODIFYING AN EXISTING NOTIFICATION OF OVERDUE ACCOUNTS ON COVERED DEBTS

To modify an initial or an additional NOA, you must select the debtor on which you posted an NOA, and enter it's Company Details view.

The action box Modify enables you to open the existing NOA to modify it

The initial unpaid invoices and/or payments cannot be changed. All the new information completed is identified under **Additional**

You may modify the contact in charge of the NOA.

You can attach any documents by clicking on **Document(s) to upload**. Once the document is uploaded it will be listed in Policy / Documents.

3. NOTIFICATION OF OVERDUE ACCOUNTS FOR NON-COVERED DEBTS

If your contract contains the non-covered debts clause, you can declare overdue accounts for the non-covered debts. The same process applies as for covered debts. To submit a NOA on non-covered debts, you must select the appropriate item in the Select Actions box:

The only difference is that you may have to add to your risk Portfolio the debtor first, as he may not be listed. To do add your debtors in your Portfolio, please refer to first section Company Search.

SALES DECLARATION

THE DECLARATION OF SALES IS REQUIRED. YOU WILL RECEIVE 3 REMINDERS IN YOUR NOTIFICATION CENTRE TO SUBMIT THE DECLARATION

According to your contractual conditions, the activity notification is based either on:

- Outstanding or sales
- By debtor or by country

The sales declaration section is located within the Policy section.

The only entry point to your sales declaration is the notification received in the Notification Centre.

1. CREATING A DECLARATION

Click on the notification number in the list of notifications in order to access the form.

Identification Part:

This section contains the information about the notification and the corresponding contract (by default the contact is the CofaNet user contact)

You may modify the name of your internal contact in charge of the sales declaration, by clicking on the Modify button.

2 Declaration:

The fields of this section can vary from one notification form to the next depending on the contract type. You should declare the turnover achieved with each of your customer / or country.

You can decide to use either:

- · the export / import function under an Excel format
- to complete all information online (the form can contain over hundreds of lines that are spread through several pages)

If you do not have any amount to notify, tick the box at the bottom of the page.

You can then either decide to:

- save your declaration (without sending your declaration to Coface): in this case you will be able to modify it before any further action.
- submit your declaration: in this case the form is sent to Coface, and you will be able to modify the data during a maximum of 10 days.

PORTFOLIO EXPORTS

THE DATA EXPORT FUNCTION ALLOWS YOU TO DOWNLOAD ALL OR PART OF YOUR PORTFOLIO INTO AN EXTERNAL FILE IN AN EXCEL OR A TEXT FORMAT.

This function can be accessed eitherfrom Tools / Customised Exports: you have access to the list of the exported files, as well as the options to customise your own exports.

or

by clicking on icon Export that is displayed on your Risk Portfolio.

A pop-up asks you if you rather prefer the simple export of the Portfolio as currently displayed, or redirect you to the page Customised Export

A popup will inform you that if the export contains less than 1000 companies it will be available in a few minutes, else it will be available the day after. Confirm the export by clicking on the Customised Export button to be redirected to the download page.

You can access to all your Exports and their customisation from the navigation menu Tool / Customise my Export.

Two sections are available:

- Risk domain
- Overdue domain

For each domain, you can manage the list of exports.

The list of files generated is presented in table format with the following columns:

- Template: name of the template used
- State: the status of the file (Loading / available / failed)

To delete an export, check the box on the left-hand side of the line and click on **Delete.**

2. CREATE YOUR OWN TEMPLATE

From Customised Exports / Risk or Overdue domain click on the sub section Manage Template. Default Portfolio exports uses predefined generic template based on your contract type, but you always have the possibility to customise your own templates to add or remove data. Please note that the default template cannot be deleted.

- Among the available criteria, select the ones you would like to get in your exports and move them in the right-hand side box with the right / left arrows.
- Sort your criteria order by using the top / down arrows
- Click on Submit

Once created, your template will appear in the Manage Template list. You can create up to 10 templates.

- You can modify an existing template at any time by clicking on the name of the template to update it.
- You can also delete a template from the list, by clicking in the check box next to the template you want to delete.

BULK ORDERS

THE BULK ORDER FUNCTIONALITY ALLOWS YOU
TO PERFORM ACTIONS ON PRODUCTS LINKED TO COMPANIES.
FOR EACH COMPANY IN THE LIST YOU CAN ORDER, MODIFY
OR CANCEL PRODUCTS AVAILABLE ON YOUR CONTRACT.

To access this functionality, click on Risk / Bulk Orders.

The page is divided into two parts:

- Import your file
- Imported files

1. PRODUCTS AND ACTIONS MANAGED BY THE BULK ORDERS

a. Products

The products that can be managed by the Bulk Orders are as follows:

- Credit Limits
- Customised Credit Opinions
- @rating Credit Opinions without monitoring
- @rating Credit Opinions with monitoring
- @rating Limits
- DRA without monitoring
- DRA with monitoring

Each product has specific actions.
For example, it is possible to stop
the monitoring for a @rating Credit
Opinion or to cancel a credit limit.

It is also possible to update the Customer References or the Outstanding Amounts of an existing client. This option is described later in the documentation.

B. Actions

There are 4 actions possible: Order, Cancel, Update and Stop.

Each action can apply to several products depending on the actions allowed.

The table below summarises the products and actions available:

PRODUCT	ORDER	CANCEL	UPDATE	STOP	COMMENTS
Credit Limit	•	•	•		The update is done on the amount
Customised Credit Opinion	•	•	•		The update is done on the amount
@rating Credit Opinion without monitoring	•	•			
@rating Credit Opinion with monitoring	•	•		•	This product must be stopped before being cancelled
@rating Limit	•	•			
DRA without monitoring	•	•			
DRA with monitoring	•	•		•	This product must be stopped before being cancelled

2. HOW DOES IT WORK?

a. File format

The bulk products order is carried out via a file containing the list of companies on which a product will be ordered. This file must contain one line per product order / update. Each line must contain exactly 10 data fields and each data field must be separated with a semi-colon ";".

Each line is composed of:

- 10 data fields, each separated with a ";"
- So, in total, there are 9 semi-colons

The 10 data fields are disposed on each line in the same order and in the following way:

- Country code: ISO code based on 3 letters (see the complete list in the appendices)
- Easy Number if it is available
- Type of Legal Identifier if the Easy Number is not known.

For example, "DnB" for the United States and Canada

- Value of Legal Identifier if the Easy Number is not known
- Client reference
- Product to order
- Action on product: order, cancel, update or stop
- Amount: for credit limits and customised credit opinions
- Outstanding Amount
- Operation number

Please note:

- The 5th data field can contain the client reference which will be considered in CofaNet when the product is ordered.
- The 8th data field contains an amount when the credit limit or customised credit opinion is ordered or modified.
- The 10th data field contains an operation number when the credit limit is ordered, modified or deleted with an operation number different from 0 (used in case of complex decisions to indicate which action should be carried out first, second, third, etc.).

b. Data completion

Each product and each action corresponds to a code:

- Credit Limit: CRL
- Express Credit Limit: ECL
- Customised Credit Opinion: CCO
- @rating Credit Opinions without monitoring: RCO
- @rating Credit Opinions with monitoring: ROM
- @rating Limit: RLI
- DRA without monitoring: RSC
- DRA with monitoring: RSM

The possible actions on products are as follow:

- Order: C
- Cancel: D
- Update: U
- Stop: S

The product codes and action codes for each product are listed in the table below:

CONTRACT TYPE	PRODUCT NAM	PRODUCT CODE	ACTIONS AVAILABLE	AMOUNT REQUIRED
INSURANCE	@rating Limit Credit Limit	RLI CRL	C/D C/D/U	•
	@rating Credit Opinion without monitoring	RCO	C/D	
INFORMATION	@rating Credit Opinion with monitoring	ROM	C/S/D	
	Customised Credit Opinion	CCO	C/D/U	
INFORMATION	DRA without monitoring DRA with monitoring	RSC RSM	C/D C/S/D	

The list of data available and its status (mandatory or optional) are listed in the table below:

FIELD	MANDATORY	OPTIONAL	COMMENT
COUNTRY CODE	•		
EASY NUMBER		•	If the EASY Number is not given, the legal ID is
LEGAL IDENTIFIER TYPE	•		Not required if EASY Number is present
LEGAL IDENTIFIER VALUE	•		Not required if EASY Number is present
CLIENT REFERENCE		•	
PRODUCT CODE	•		
ACTION	•		
AMOUNT		•	Mandatory for credit limits and customised credit
OUTSTANDING AMOUNT		•	Blank if no Outstanding Amount
OPERATION NUMBER		•	Only for Credit Limit, 0 if the field is not filled in

Example

For example, if the EASY Number is given, then it is not necessary to give the type of the Legal Identifier and its value. However, the semi-colons are kept and the data is empty. In all cases, we must always have 9 semi-colons:

Since the EASY Number is not given, the data between the first and the second ";" is empty. The following example uses the EASY Number as the Company Identifier, therefore the data for the type of Legal Identifier and the data for its value are left empty:

FRA;00000012354897;;;41105654;CCO;C;10000;15000;

In all cases, we always have 9 ";".

This last example is similar to the previous one except that the client reference is not given:

FRA;00000012354897;;;;CCO;C;10000;15000;

The following example does not update the Outstanding Amount:

FRA;00000012354897;;;;CCO;C;10000;;

The following example updates the Outstanding Amount to the amount "0":

FRA;00000012354897;;;;CCO;C;10000;0;

We can see with the two last examples that to leave the Outstanding Amount field empty or fill it with a "0" makes the difference. In the first case, the Outstanding Amount is not taken into account (unchanged); in the second case the Outstanding Amount will be equal to 0 for the buyer.

c. Coface reference (CRS Number) as a Legal Identifier

The Coface reference can be used as a Legal Identifier: in this case, the Legal Identifier type to include is "CRScny" (please make sure that the case of the letter is respected, "CRS" must be in uppercase and "cny" in lowercase).

The example below uses the Coface reference to order a Customised Credit Opinion of 5,000 Euros with an update of the Customer Reference and without Outstanding Amount:

FRA;;CRScny;100156874;B41105654;CCO;C;5000;;

4. VISUALISING THE BULK ORDERS RESULT

monitoring previously-stopped using a Legal Identifier

- The total number of lines contained in the file
- The number of lines that contained errors

Once the Bulk Orders process is over, by clicking on the filename and more specifically on Processed, you can access the details of each line taken into account during the import.

The Reject Cause column explains why the line could not be processed. The number displayed in the first column corresponds to the line in the imported file.
